There are various methods for calculating the total square footage of a condominium unit, and depending on the method of calculation, the quoted square footage of a condominium unit may vary by more than a nominal amount. The dimensions stated in this brochure are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and, in fact, are larger than the dimensions of the "Unit" as defined in the Declaration of Condominium for Virage which is measured using interior measurements.
